

Hello my name is George C. Mullins my amatuer call sign is kc8qww I do support no code internationals morse petiton RM-10786 how would the old ham operators and the new hams like to use the spark transmitter now and stay in the past and not use the ssb bands they would not like that. us new hams would like to move ahead to the future and not use morse code anymore because some people like my self can not pass the morse code test this should be a hobby any person to enjoy not just certain people to use so please drop the morse code test so every body can enjoy amatuer radio my email is GCMULL0131@AOL.COM
THANK YOU.
